SHARED OWNERSHIP AND THE BUYING PROCESS

Stepping into a new home that belongs to you is one of the best feelings in the world and with Shared Ownership, you might be able to have that feeling sooner than you think.

Shared Ownership is a way to buy a share in a home now with the option to buy more of it in the future. You pay a rent on the share of the home that you don't own.

Shared Ownership is a popular scheme for people who may struggle to buy a home on the open market. This is a common position to be in and our Shared Ownership customers are of varying ages and from all walks of life.

FIRST TIME BUYER, ADAM

"Plumlife helped me get on the property ladder early with a smaller deposit, helping me move into a modern apartment that meets my needs."

Initially, you can purchase the share of a home that you can afford, usually between 25-75% and then you'll pay rent on the other share. On some newer Shared Ownership homes, lower shares may be available, subject to eligibility checks and further approval.

You'll need a minimum level of income and savings, the amount will be determined by the value of the home you want to buy, your personal circumstances, and your lender's requirements, but depending on which lender you use, the deposit can be as little as 5% of the share value.

ELIGIBILITY

Certain key eligibility criteria apply to Shared Ownership, these include

- Not being able to buy a suitable home for your needs on the open market
- Not owning any other property
- Having a household income of less than £80,000 per year
